## SUMMARY

I'm a skilled front-end developer with a psychology background, keen to enhance my tech skills. I'm well-versed in JavaScript, HTML5, CSS3, and Sass (SCSS), and I've gained practical experience with React, TypeScript, and Git/GitHub through academic projects. Now, I'm eager to take on real-world challenges in front-end development and leave my mark in the field.

I possess a foundational grasp of object-oriented programming and familiar with software development methodologies like Agile. I'm enthusiastic about continuous learning and growth, ready to delve into any necessary areas. With conviction, I believe in my ability to bring value to the team as a front-end developer, actively contribute and expand my skills.

## SKILLS

- JavaScript (ES2015–2019)
- HTML5, CSS3, Sass (SCSS), BEM
- React
- Basic Typescript
